ABOUT FLIP

Electronic Music Experience

FLIP is the artistic project of Felipe Serna, a Colombian and Spanish DJ, creative director, and community builder.

His journey began in 2013 at the age of 13, evolving from family celebrations and private events to clubs, cultural experiences, and international performances across Colombia, Spain, and Panama.

With over 12 years behind the decks and several residencies throughout his career, FLIP has developed a musical vision that blends atmosphere, storytelling, and human connection. Focused on Organic House, Deep House, and Downtempo, his sets are carefully curated journeys inspired by nature, travel, coffee culture, and conscious living.

Beyond the DJ booth, FLIP is the founder of Dance Here Dance, a community-driven project that explores the intersection of music, culture, creativity, and meaningful human experiences.

Based in Pereira, Colombia, and holding both Colombian and Spanish citizenship, FLIP is available for artistic residencies, boutique festivals, hotels, retreats, coffee sessions, cultural events, clubs, and private experiences worldwide.

Curated Musical Journeys

FLIP creates immersive electronic music experiences through Organic House, Deep House and Downtempo.

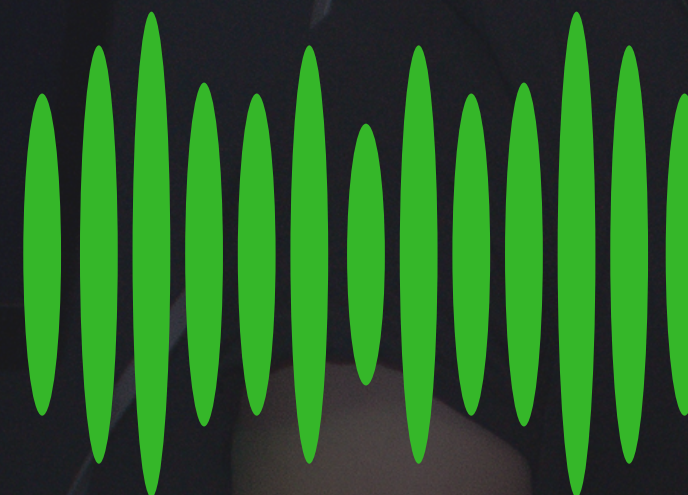

His sound blends organic textures, tribal elements, melodic atmospheres and groove-driven rhythms inspired by nature, travel, coffee culture and meaningful human connection.

Each set is designed as a journey, carefully balancing energy, emotion and atmosphere to create memorable experiences for every audience.
